Dear Mihaela,

We would like to inform you that our company has officially entered pre-bankruptcy settlement proceedings, initiating a court-supervised financial restructuring process in accordance with the applicable laws of the Republic of Croatia.

The primary objective of this procedure is to enable the unfreezing of the company's bank accounts and ensure the continuity of our operations. While all existing claims will be addressed as part of the settlement process and in line with the court's decisions, we are currently unable to provide specific information regarding the timing or manner of their resolution.

Please note that our company fully intends to continue its business activities throughout and after this process. We remain committed to stabilizing operations and re-establishing regular cooperation with all our partners once the restructuring is complete.

Thank you for your understanding during this period. We will keep you informed of any material developments as the process progresses.
