(1)

Activities are registered in the CBE using NACE-BEL codes (Belgian activity nomenclature). After a conversion of activities with a NACE-BEL code (version 2008) to NACE-BEL codes (version 2025), the start date of activities (version 2025) is 01/01/2025. This is therefore a purely administrative conversion and not a change of activities. The 2008 activities can be viewed by clicking on the link: "Show the activities NACE-BEL code version 2008".

(2)

Activities are registered in the KBO using NACE-BEL codes (Belgian Nomenclature of Activities). After a conversion of activities with a NACE-BEL code (version 2003) to NACE-BEL codes (version 2008), the start date of activities (version 2008) is 1/01/2008. Activities with a NACE-BEL code (version 2008) were subsequently discontinued on 31/12/2024 and automatically converted to NACE-BEL codes (version 2025). This therefore concerns purely administrative conversions and not a change of activities. The 2003 activities can be viewed by clicking on the link: "Show the activities NACE-BEL codes version 2003".
