

We will issue provision notes along the proceeding to cover both third party expenses and our fees in advance.

> Estimated third party expenses:

- Judicial tax: 270 euros

- Bailiff: 300 euros

• Second phase ("apremio")

> Our fees:

We charge an hourly fee of 220 euros per hour, my estimate for this case is a minimum of 5 hours, but it will depend much on the assets found and on the additional assets research that might be necessary.

Office costs of 7,5% over resulting fees plus interests over the principal and applicable commission as per our Company Policy on the moneys collected.

The said fee covers asking for the seizures of the assets found and follow up until credit is recovered. Any other issues such as appeals against unfavorable court resolutions are excluded.

We will issue provision notes along the proceeding to cover both third party expenses and our fees in advance.

> Estimated third party expenses:

- Property log: around 1% of the principal

Regarding these enforcement fees and costs, we would increase the amount to be enforced so that you could recover its legal expense or part thereof, should we collect as a result of the enforcement.

Kindly be aware that we will be needing to have in advance (*):

- Power of attorney granted in our favor before filing the enforcement.
- If debtor is not a company, If debtor is not a company, NIE or NIF number (Número de Identificación de Extranjeros or Número de Identificación Fiscal).
- Original or legalized copy of the title (judgment)
- Original or legalized copy of the art 53 certificate
