Subject: Subject: Request for Resolution Regarding 110 Crazy

Dear Fabjian and Tathiana,

I am writing to express my concerns regarding a recent discovery that has left me quite upset because neither you or the brooker informed me during the deal.

It has come to my attention that the vessel 110 Crazy sustained significant damage during the winter of 2011/2012 due to grounding in the Messina Strait, while Mr. Possl was on board. The extent of the damage required the reconstruction of three meters or more of the hull and keel. At this point, even if repaired, the boat remains compromised.

I can assume you were not aware of this situation, as you mentioned that you have not conducted an inspection of the boat. Regardless, this situation constitutes a latent defect.

In light of these circumstances, **I suggest that we amicably terminate our agreement**. I would only request the immediate return of the deposit of €10,000 that I have already paid. It seems unwise to incur further expenses for an inspection and lifting, as the big repair will be evident from the inspection results.

I await your confirmation on this matter.
Sincerly
Alessandro
