## **1. UVOD**

Na zahtjev Uprave društva ULJANIK d.d, Flaciusova 1, Pula, obavljena je procjena vrijednosti pokretnina u vlasništvu 3.MAJ MOTORI I DIZALICE d.d. u Rijeci, Liburnijska 3.

Procjena dijela imovine (tehnička postrojenja, pogonski inventar, alat, namještaj, te informatička oprema) obavljena je prema knjigovodstvenim listama dobivenim od Naručitelja. U dostavljenim listama nije navedeno stanje ispravnosti i funkcionalnosti za predmetnu imovinu, niti su navedeni podaci o tipovima i ostalim pratećim detaljima samog inventara.

Sagledavajući karakterističnost društva, kod procjene je korištena metoda tržišne vrijednosti inventara i opreme.

Do takvih vrijednosti osnovnih sredstava došlo se:

- pregledom postojeće dokumentacije i identifikaciji predmetne imovine
- sagledavanje funkcionalne sposobnosti inventara
- konzultacijom s članovima inventurne komisije, te djelatnicima tvrtki koje se bave održavanjem predmetnog inventara i prateće opreme
- utvrđivanjem tehničkog stanja, nedostataka i mogućnosti višestruke ili specifične namjene
- utvrđivanjem postotka rabljenosti i faktora rentabilnosti, te starosti inventara
- uspoređivanjem s tekućim cijenama u katalozima i kontaktima s dobavljačima takvog inventara i opreme

U razgovoru sa korisnicima opća je konstatacija da su tehnička postrojenja kao i pogonski inventar pravilno održavani i periodički servisirani, a s obzirom da je u većem dijelu nabavljen između 1950 i 1980 čak i u relativno dobrom stanju. Većina postrojenja i pogonskog inventara čine uređaji kojih je jako malo na tržištu i koji su napravljeni za zahtjevne obrade velikih točnosti. Pošto su to masivne, teške i krute konstrukcije sa jako malo automatike i elektroničkih komponenti isti su veoma pogodni za modernizaciju i dogradnju.

Alat i priručni uređaji su za profesionalnu upotrebu, ali s obzirom da je nabavljen prije više od 25 godina u relativno je istrošenom stanju.

Ostali inventar kao što je namještaj i informatička oprema nalazi se po pogonu i kancelarijama, a pošto je nabavljen prije više od 25 godina većinom je za otpis i zamjenu sa novom opremom.

Iz toga razloga kompletan inventar procijenjen je sagledavajući tržišnu vrijednost nove slične opreme na domaćem i međunarodnom tržištu, tehnološkom i tehničkom stanju, predviđenim dosadašnjim i budućim ulaganjima, postotku koristivosti i predviđenim vijekom korištenja inventara.

Procjena inventara izvršena je prema obračunskim jedinicama, a na kraju je dana ukupna vrijednost.

Procijenjena vrijednost je fiksna i izražena u hrvatskim kunama, bez pridodane vrijednosti poreza na dodanu vrijednost (bez PDV-a), te odnosom na dan procjene 30.06.2016.

Odnos tečaja je 1 EUR = 7,512737 kn (srednji tečaj Hrvatske Narodne Banke).

Napomena:

Stavke od 4 do 15 su građevinski radovi održavanja i rekonstrukcije, te bi iste trebao procijeniti procjenitelj graditeljske struke.

Procijenjena vrijednost je fiksna i izražena u kunama, sa odnosom na dan procjene 30.06.2016 i tečajnoj listi Hrvatske narodne banke za datum 29.06.2016;

1 EUR = 7,512737 kn (srednji tečaj).
