Dear Marijan,

In accordance with your pleasant conversation regarding the work that was to be performed by the company Apexing on 25-1-21, the amount of HRK 142,903.60, that project was to be terminated, but due to my mistake we forgot to inform you, and why was your company highlighted on the invoice I honestly didn't even watch it. How crazy and furious you were. The American Embassy has not carried out the work until today, and when you threatened lawsuits for non-payment within the stipulated time, they withdrew and stopped the project. So the company Apexing issued an invoice that was not came to life and we canceled it and threw it in the trash. I personally stood up for you because in my life I have never seen such a good engineer who uses his knowledge and his work. We haven't been in Croatia for a year because we don't have work, and since a lot of our work partners came, we withdrew from the market and returned home.
best regards to you and your workers

Best Regards
