Dear Kamil Can

We do not accept your situation towards us, because we have done everything in accordance with all norms and more than that,

we came to meet you by helping you install equipment that we did not contract for

We have arranged for you the production of manholes and their height, as well as separators and inflation systems everything you asked me for, I found a solution for you and showed good will and better cooperation today and tomorrow

when you were in trouble we stood by you and helped you, we also find you the company Apex-Ing with whom you had no problems when they come to visit you, you also tell them that the bill should be HRK 142,930.60 and that bill must come from my company to your company, (what do I have to do with that) he creates an invoice for my company and I send it to you, and you need to pay that invoice to them, and after that they will send you a new invoice to your company or the American embassy. this is your idea how did you want to do it, I will call the apex ing company to cancel all the invoices to me because I do not want to be in that story and not to issue you the goods because you are not correct and do not stick to the contract, I will also inform the American embassy how you are working on their construction site

you have to understand that if it weren't for us, we wouldn't have done it because you didn't have a builder to carry out those works

I gave in to the persuasion with mdk and Apex ing to carry out the works for you and that within the unforeseen deadlines at the beginning of 8 months

after everything i did for you you made a fool of me and you are really not fair in your work

in the attachment I am sending you what we did with a description of what you asked for, if that is not acceptable unfortunately we will seek justice in court
